-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Gagne U.S. Patent 1,342,951. Gagne shows all of the claimed subject matter of a high strength detachable cylinder-to-plate joint in Figures 1-5.

Regarding claim 1, the joint comprising: a base plate 37; a connecting disk 40 having an exterior threaded surface and one or more holes (for bolt 20) within the radial body of the disk 40 for receiving attachment means 89 for attaching the disk 40 to the plate 37; a cylinder 38 having annular end with an abutment surface; and a threaded connection for detachably attaching an annular end to the connecting disk 40 so that the abutment surface abuts the base plate 37.

Regarding claim 2, the base plate 37 comprises a table top and the cylinder comprises a table leg.

Regarding claim 16, pins 36 for limiting rotation of the connecting disk 40 (through the threaded connection on 37).

### ***Response to Arguments***

3. Applicant's arguments filed 7/1/04 have been fully considered but they are not persuasive. Applicant argues the differences between the described invention and the

Art Unit: 3679

invention of Gagne, however the applicant does not describe the differences between the **claimed** invention and the invention of Gagne. The examiner maintains that Gagne stills shows all of the claimed subject matter as described above.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
